Question 7.

I would like to scrap specific hashtags on Twitter and also stock market data

Question 5

d) `class(mydf), "list"` and `class(mydf$players),"data.frame"`

Question 6

part4) Df1 class is "data frame" and df's class is Sparkdataframe.

part5) There is an error message, This is probably because of the difference in the classes of each data frame.

part 6) The same thing happens as in the previous exercise.
